

# Week 7 Lab Agenda

## Hand-on using Python CLIPSPY [Important for your Project]

- Download **Lab7**.ipynb from **ebwise** for your reference.
- Using **Anaconda** navigator or local python environment on Vscode

## Assignment and Project Progress Update:

Assignment	Project
<ul style="list-style-type: none"><li>• Progress update</li><li>• <b>Evaluation methods</b> from literature review</li></ul>	<ul style="list-style-type: none"><li>• Type expert system that your group chosen.</li><li>• Your group <b>evaluation method</b></li><li>• Total number of production <b>rules</b>?</li></ul>

[Lecture 2, Slide-25]

## Verification, Validation and Evaluations

- Verification: Correct implementation. Is the system built right?
- Validation: Correct problem-solving. Is it giving correct answers?
- Evaluation: Overall usefulness. How well does it perform?
